

AV-PLEX

An Unique Combination Of B-complex Vitamins, Amino Acid, Choline Chloride & Minerals with Vitamin C

COMPOSITION	
Each 5 MI Contains :	
Vitamin B2	2.50 Mg
Vitamin B6	1.00 Mg
Vitamin B12	12.50 Mg
Niacin	75.00 Mg
Biotin	25.00Mcg
Folic Acid	4.00 Mg
Calcium Pantothenate	2.50 Mg
Vitamin C	1.00 Mg
Zinc Sulphate	110.00 Mcg
Manganese Sulphate	45.00 Mcg
L- Lysine	20.00 Mg
DI- Methionine	10.00 Mg
Choline Chloride	10.00 Mg
Aqueous Base	Qs

Enhance Health, Growth &

Performance of the Birds with AV-Plex

FEATURES & BENEFITS :

- ✔ Stimulates natural immunity.
- ✔ Effective against cage paralysis and lameness.
- ✔ Ideal to combat various vitamin deficiencies.
- ✔ Protects kidney and liver (Fatty Liver Syndrome).
- ✔ Improves growth and egg production.
- ✔ Ensure better feed utilization and performance.
- ✔ Improves the fertility and hatchability in breeders.
- ✔ Acts as an anti-stress.

AV-PLEX

If a product contains the vitamin B complex, it should have some of each of the following:

Vitamin B1 Thiamin	Vitamin B1 is vital to the healthy growth and function of organs, including the brain and heart.
Vitamin B2 Riboflavin	The body needs vitamin B2 to break down fats and drugs.
Vitamin B3 Niacin.	The body needs niacin to maintain healthy skin, nerves, and digestion. Doctors sometimes prescribe trusted Source high doses of niacin to help improve cholesterol levels.
Vitamin B5 Pantothenic acid.	Vitamin B5 is essential for the health of the brain and nervous system.
Vitamin B6 Pyridoxine.	Vitamin B6 helps the body make new red blood cells, which carry oxygen throughout the body. It also helps keep the immune system strong.
Vitamin B7 Biotin	Biotin is essential for healthy hair, nails, and nerve function.
Vitamin B9 Folic acid.	The body uses folic acid — or folate, its natural form — to make DNA and genetic material.
Vitamin B12 Cobalamin.	The birds body never and blood cells require vitamin B12. Adequate levels of B12 Trusted Source also prevent pernicious anemia, which is a deficiency of this nutrient
Vitamin C Ascorbic Acid	Increase production of WBCs and Antibodies formation. important cofactor for Amino Acid Hydroxylation & improves Iron Bioavailability.
Zinc (Zn)	Increase Endocrine secretion and interact with other mineral in the Gut. Improves growth development and production , augment immunity and enhance Antioxidant capacity.
Manganese (Mn)	Mn is an element required in nutrition, It plays an important role in growth, bone development perosis prevention, optimal eggshell quality and performance maintenance of poultry.
Amino Acid	The key of amino acid are corban, hydrogen oxen and nitrogen. Amino acid are the basic structure building units of protein and other biomoleculers, they are also utilized as an energy source.
Choline Chloride	It has been a widely used supplement poultry nutrition. Choline prevents abnormal storage of fat in the liver, which ensures proper body metabolism and efficient utilization of nutrients. It also supports the proper functioning of the nervous system and ensures its harmony.

RECOMMENDED USAGE :

- ✓ POULTRY : PER 100 BIRDS
 - CHICKS : 5 ML
 - GROWER /BOILER : 8 ML
 - LAYER : 10 - 15 ML
 - BREEDER : 20 -25 ML
 - ✓ CATTLE & HORSE : 25 ML TWICE DAILY
 - ✓ CALF, FOAL, PIG, & GOAT : 15 ML TWICE DAILY
 - ✓ FISH : 5-10ml Per 1kg feed.
- OR AS ADVISED BY VETERINARIAN/ COUNSULTANT
