

Multivitamin Liquid for Poultry

AVITSTARTM

एवितरस्टार

Increase egg production and FCR.

It acts as growth promoters, increases growth rate.

It acts as Antistress.

Increase body weight and growth in broilers.

We Always Give Worth !!

AVITSTARTM एविटस्टार

PRODUCT DETAILS

AVITSTAR is one of the best multivitamins for poultry birds. It is the combination of vitamins A, D3, E, H, and Lysine as a liquid poultry feed supplement. It reduces chick mortality by removing stress by acting as an anti-stress liquid for poultry. Poultry birds are passing from several conditions during the whole life and these situations may cause several types of stresses on poultry which may be vaccination stress, transportation stress, etc. with the passage of time or with age the requirements of diet as well as supplements increases in case of poultry. As the only diet provided to poultry is not enough for its growth and production. In the case of layers, there is the demand for increased egg production but with age and stress conditions egg production is highly affected, and to get the best result in terms of production from layers.

AVITSTAR COMPOSITION :

EACH ML. CONTAINS

Vitamin H (Biotin)	100 mcg
Vitamin A	25000 IU
Vitamin D3	12000 IU
Vitamin E	50 mg
Vitamin C	5 mg
Zinc	20 mg
Cobalt	200 mcg
Energy Value	0.65 kcal
Vitamin B12	20 mcg
Lysine	250mg

BENEFITS

- Improve weight gain & keeps high productions.
- Improve feed utilization, digestibility & FCR.
- Increase meat & egg productions.
- Vitamins are essential for growth, coping with stress conditions & better livability.
- Improve breeding efficiency in male birds.

DOSE

- Chicks : 3-7 ml/ 100 Birds
 - Growers: 5-6 ml/ 100 Birds
 - Layers : 8-10 ml/ 100 Birds
 - Breeder : 10 ml/ 100 Birds
- or as per directed by the consultant/Veterinarians

VITAMIN - A

- Important For Normal Health of Mucous Membrane & Epithelial cell functions.
- Important For Differentiation & Development of B & T Lymphocytes and Immunity.

VITAMIN - D3

- Essential For Normal Bone Formation and Help For absorption of Calcium.
- Important For Improve Condition of Rickets and Osteoporosis.

VITAMIN - E

- Essential For Optimum Immunity and Fertility.
- Important for condition of liver degeneration and muscle degeneration.
- Important for blood vessel permeability so its deficiency resulting in to edema.

VITAMIN - C

- Increase production of WBCs. and Antibodies formation.
- Vitamin C act as antioxidant and Antistress.
- Important Cofactor for Amino Acid Hydroxylation & Improve iron Bioavailability.

VITAMIN - H

- Essential for proper formation of skin and feather.
- Vitamin H involve in many metabolic function ie. metabolism of essential Fatty Acid, Amino Acid synthesis & fatty Acid synthesis.

ZINC

- Helps in Increasing body weight, feed intake & feed efficiency in boilers.
- Improves Egg Shells Quality in layer.
- Increase Endocrine Secretion and Interact with other minerals in the Gut.
- Improve growth development and production, augment immunity and enhance antioxidation capacity.

COBALT

This trace mineral is a constituent of vitamin B 12 and its deficiency may result slow growth, reduced hatchability and mortality.

VITAMIN B 12

This water soluble vitamin is required for maintaining normal growth and good feathering. The shortage of this can cause anaemia, poor growth and embryonic mortality.

Presentation
500 ml. & 1 Ltr.
HDPE Bottle
