

CHANGE YOUR WAY NOT YOUR GOALS

***A Comprehensive  
Solution for  
Effective  
prevention &  
Treatment of gout  
and ascites.***

# **AVS Reno-100**

- ▶ Instantly Relief From The Gout In Poultry.
- ▶ Gives Relief In Ascites.
- ▶ Repairs And Improves Kidney Functioning.
- ▶ Dissolves Uric Acid Deposits In Kidney And Other Visceral Organs.
- ▶ Removes Nephrotoxicity.
- ▶ Improves Renal Efficiency.

***A Natural Renal  
Tonic for Poultry***

**GOUT AND ASCITES BOTH ARE COMMON & SEVERE LIFE THREATS FOR POULTRY.**

In gout condition in poultry,, urates and uric acid crystals are deposited in kidney tubules and ureters. These may also advance to the heart, liver and intestine. The key causes of gout include nephrotoxicity, improper nutrition and management. Ascites in poultry, is seen as a fall-out of certain diseases and toxicity. **AVS Reno -100** acts at nephron level to increase the urine flow which ultimately gives relief from ascites.

## **How does AVS Reno –100 work :**

- ▶ In gout condition in poultry, urates block the kidney filters and reduce the capacity of kidneys.
- ▶ **AVS Reno - 100** is formulated with energized phytogetic extracts that re-flow the life energy in the Nephrons.
- ▶ Nephrons are triggered to restore their core function leading to uric acid crystal dissolution, removal of urates and flushing out of a toxin which leads to restored kidney function and eased Gout condition.

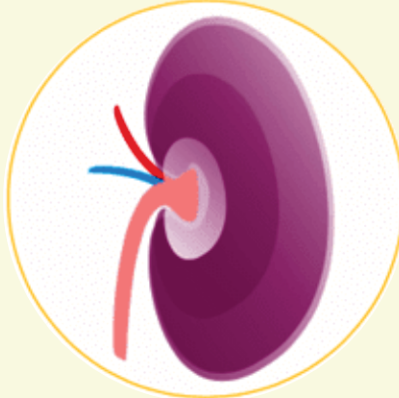

***We Always Give Worth !!***

# AVS Reno-100

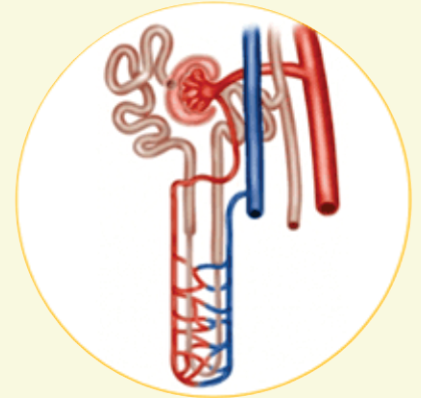

*A Natural Renal Tonic for Poultry*

1 Liquidation of uric acid crystals and urates (extracts of cantharidin and cumin aldehyde)

2 Accelerates purifying activity of individual nephrons (extracts of cyanogenic glycosides and apocynin)

3 Improves kidney filtration activity (extracts of chimaphilin and arbutin)

## PROOF OF PERFORMANCE :

### ★ SAMPLE SIZE :

Conducted on 5000 broilers in each flock x 4 flocks • JAN 2020 • UTT, India

### ★ PRE-CONDITION :

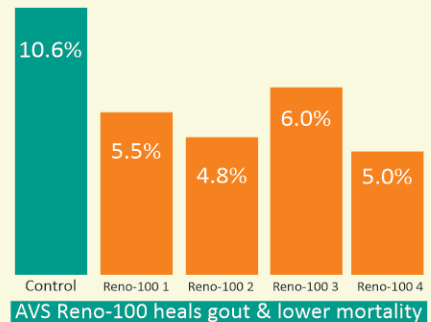

Gout lesions seen day 3 onwards in spite of good management practices. Cause identified as infected parent stock with IB variant strain.

### ★ APPLICATION :

**AVS Reno - 100** for the first 10 days

### OBSERVATIONS & CONCLUSIONS :

- ▶ Reduced mortality.
- ▶ Improved weight gain.
- ▶ Uniformity in flock at the time of liquidation (day 42).

## APPLICATION :

- ▶ Should be given in drinking water to balance body fluid for prevention and during gout or ascites in poultry.
- ▶ For gout first 10 days as a preventive treatment is utmost effective. During outbreak frequent small dosing immediately reduces mortality.
- ▶ In case of ascites in poultry, flushing of kidneys helps in excreting ascitic fluid from the body.

## USAGE :

- ▶ For gout prevention - In water - 7 to 10 ml./100 birds daily from day 1 to 7.
- ▶ During gout outbreak or ascitic condition - In water - 5 to 7 ml. / 100 birds x 3 times a day for 7 days.

POULTRY FEED SUPPLEMENT  
NOT FOR MEDICINAL/HUMAN USE  
STORE IN A COOL, DRY AND DARK PLACE.
