

AVS RESPO-400TM

*A Natural Respiratory
Tonic for Poultry*

EASES RESPIRATORY DISTRESS :

- Early recovery against respiratory distress
- Maintains respiratory health
- Effective in all types of respiratory infections in poultry

RESPIRATORY DISTRESS CAN DESTROY POULTRY LIVESTOCK:

- Respiratory infections in poultry are commonly associated with a number of viruses, bacteria, mycoplasma infections and other factors such as pollutants, dust, moulds, chemicals, gases & allergens.

THESE LEAD TO:

- *Respiratory infections and inflammation of the respiratory organs.*
- *Increased secretion of mucus and congestion of lungs.*
- *Interference with the oxygen availability to the respiratory organs, especially lungs.*

THUS DIRECTLY AFFECTING THE LIVABILITY OF BIRDS AND LEADING TO MORTALITY.

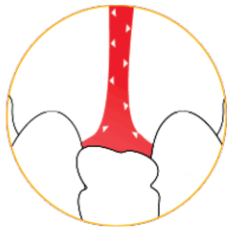

We Always Give Worth !!

HOW DOES AVS RESPO - 400 WORK:

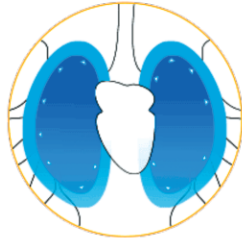

AVS RESPO-400 works on restoring the obstructed flow of Life Energy in the alveolar cells (lungs) and respiratory tract epithelial cells, by clearing the pathogens and debris at cellular level.

The following energized phytogetic extracts help relieve respiratory distress.

- ▶ Droserone and Elenoside help clear the respiratory tract.
- ▶ Jonon and Cineole help improve lung capacity.
- ▶ Atropine and Hyoscyamine help improve the oxygen carrying process.

1 Clears the tract:
Reduces the mucus secretion and clears the respiratory passage

2 Ups the lung capacity:
Improves the oxygen carrying capacity of the lungs

3 Improves oxygen supply:
Improves the supply of oxygen to blood and the brain

4 Triggers defence:
Activates body defence with immune modulator property

PROOF OF PERFORMANCE:

SAMPLE SIZE:

- ▶ Conducted on 6000 broilers in each flock x4 flocks December 2019.HRY. India

PRE-CONDITION:

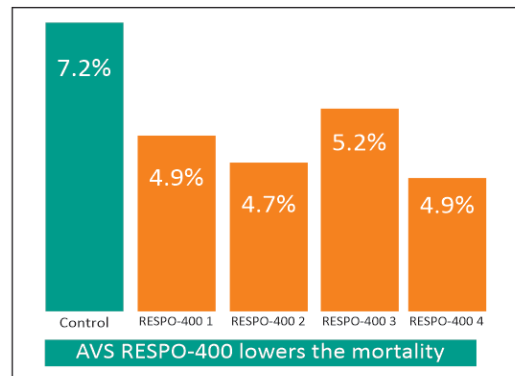

- ▶ 25 days onwards-Respiratory distress
- ▶ Respiratory Rales
- ▶ Mortality UP
- ▶ Substandard daily weight gain

APPLICATION :

- ▶ AVS RESPO - 400 in water for the first 7 days
- ▶ Repeated from day 21 till liquidation of the flock.

OBSERVATIONS & CONCLUSIONS

- ▶ No respiratory rales
- ▶ Improved daily weight gain
- ▶ Mortality under control

POULTRY FEED SUPPLEMENT
NOT FOR MEDICINAL/HUMAN USE
STORE IN A COOL, DRY AND DARK PLACE.

APPLICATION:

- ▶ AVS RESPO - 400 should be used routinely, mixed with water to protect against respiratory diseases and other contributory factors in poultry.
- ▶ To be given for 7-10 days or as required.
- ▶ Or as directed by the veterinarian/Consultant

USAGE:

Direction for use:
For each 100 birds per day

Broilers	Layers/Breeders	
1-2 wks.	1-8 wks.	10 ml.
3-4 wks.	9-20 wks.	20 ml.
5-6 wks.	21-72 wks.	40 ml.

Presentation
1/5/20 Ltr.
HDPE Bottle
